THE CZAR TO BUILD A CITY .- The State Department has received a copy of the following decree issued by the Car of Russia:

Our Empire, which comprises im-se territories in Europe and Asia, neen summoned by Divine Provid ace to contribute toward the friendly intercourse of the people of the Occident with those of the Orient. In attaining this historical object, we have had the frierdly co operation of the Emperor of Chica, who has ceded to the use of the port of Talienwan and of Port Arthur, and has opened to us through his possessions an outlet for the great line of railway from Siboy to the Yellow Sea. Thanks to this wise decision of the government of his ma jesty the Boad skhan, the extreme limit of the two continents of the Old World will soon be united by a continuous line of rails, which will secure to all nations the incalculable acvartages of easy communication and will bring new regions into the genera development of trade.

In our constant solicitude for this understaking of such general useful ness, we have carefully considered what a position of the greatest importance the starting point of this line—Talien-will occupy when the road has been constructed. As we declared at the time of its occupation that this port should be open to the commercial fleets STOUT, &C. of all nations, we have now decided to Satisfaction Guaranteed as to Price and begin the erection near to it a city which we shall call Dalny.

'At the same time, in view of the commercial development of the future city, we confer upon it for the whole term during which that territory has the agreement dated the 15-27th of March, 1898, the rights of free trade which belong to free ports."
